PATIENTS LISTED FOR SOLID ORGAN TRANSPLANTATION

Statistics for 2016

Glossary

Waiting list active start of year

This data refers to the count of patients who were listed for the respective organ indicated at the start of a calendar year. Active refers to those patients who are listed as active and if called, when an organ becomes available, have been assessed to be prepared and able to accept an organ transplant, unless otherwise indicated at the time of the call.

New listings

This data refers to patients moving on to the active deceased donor waiting list during the calendar year of reporting, from never being on or previously taken off (removed).

Patients transplanted

This is the number of patients on the active deceased donor waiting list that received a transplant during the calendar year of reporting.

Total patients listed during the year

The cumulative number of patients listed on solid organ transplant waiting lists during the calendar year. This is not the number of patients listed on solid organ waiting lists at any given month.

Died on list

This data refers to those patients who died while on the active deceased donor waiting list. Year of death is during the reporting year.

Removed from list

This data refers to those patients taken off (removed from) the active deceased donor waiting list during the calendar year of reporting.

Active end of year

This data refers to those still on the active deceased donor waiting list at the end of the calendar year of reporting.
