

### Transplantation Portal – Readiness Criteria in OrganMatch

This guide covers the following areas:

- Readiness Criteria in OrganMatch.
- Readiness Criteria requirements for each Organ Program.

## Readiness Criteria In OrganMatch

Readiness criteria indicates whether a patient is system ready for matching. Each program has specific criteria and testing requirements that must be completed before the patient can be matched.

### How do I check a patient's readiness?

- By looking in pool management
- By looking in the patient's enrolments for transplant

If the patient is not ready there will be an **X** in the ready column.
