

This guide covers the following areas:

- Readiness Criteria in OrganMatch.
- Readiness Criteria requirements for each Organ Program.

Readiness Criteria In OrganMatch

Readiness criteria indicates whether a patient is system ready for matching. Each program has specific criteria and testing requirements that must be completed before the patient can be matched.

How do I check a patient's readiness?

- By looking in pool management
- By looking in the patient's enrolments for transplant

If the patient is not ready there will be an **X** in the ready column.

Enrolments for transplant

[Current](#) [History](#)

Role	Organ Program	Pathway	Waiting Time	Ready	Status
Recipient	Lung	TWL	1 year	X	On Hold

Note: Readiness for matching is also displayed in the Donor Dashboard.

Transplantation Portal – Readiness Criteria in OrganMatch

1. Click of on the **X** to view the reasons.
2. A pop-up box will appear

Readiness Assessment

Donor Recipient

This person's match profile is not ready because of the following reasons

Final ABO Blood Group not Confirmed

Readiness Criteria Requirements

Kidney TWL

Criteria	Recipient requirements
HLA typing	Authorised for: HLA-A – 1 field HLA-B – 1 field HLA-C – 1 field HLA-DRB1 – 1 field HLA-DQB1 – 1 field HLA-DQA1 – 1 field HLA-DPB1 – 1 field HLA-DPA1 – 1 field HLA-DRB3/4/5 – 1 field (where applicable)
Location	OM Lab entered Transplant Hospital entered
Luminex	Luminex Antibody screen (SAG1) Tested within 100 days Luminex Antibody screen (SAG2) Tested within 100 days
Unacceptable antigen	Authorised
Samples	ABO final and ABO confirmed
Dialysis	Start date entered

Luminex	Luminex Antibody screen (SAG1) Tested within 100 days Luminex Antibody screen (SAG2) Tested within 100 days
Samples	ABO final and ABO confirmed
Unacceptable Antigens	Authorised

Heart, Lung and Heart/Lung TWL

Criteria	Recipient requirements
HLA typing	Authorised for: HLA-A – 1 field HLA-B – 1 field HLA-C – 1 field HLA-DRB1 – 1 field HLA-DQB1 – 1 field HLA-DQA1 – 1 field HLA-DPB1 – 1 field HLA-DPA1 – 1 field HLA-DRB3/4/5 – 1 field (where applicable)
Location	OM Lab entered Transplant Hospital entered
Luminex	Luminex Antibody screen (SAG1) Tested within 100 days Luminex Antibody screen (SAG2) Tested within 100 days
Samples	ABO final and ABO confirmed
Unacceptable Antigens	Authorised
Enrolment Criteria	Acceptable Donor Height Range (cm)
Height & Weight	Height (cm) Weight (kg)

Kidney KPD

Criteria	Recipient requirements	Donor requirements
HLA typing	Authorised for: HLA-A - 2 fields HLA-B - 2 fields HLA-C - 2 fields HLA-DRB1 – 2 fields HLA-DQB1 – 2 fields HLA-DQA1 – 1 field HLA-DPB1 – 2 fields	Authorised for: HLA-A - 2 fields HLA-B - 2 fields HLA-C - 2 fields HLA-DRB1 – 2 fields HLA-DQB1 – 2 fields HLA-DQA1 – 1 field HLA-DPB1 – 2 fields
Location	OM Lab Transplant Hospital	OM Lab Transplant Hospital
Luminex	Luminex Antibody screen (SAG1) tested Luminex Antibody screen (SAG2) tested	N/A
Unacceptable Antigens	Unacceptable Antigen List Authorised	N/A
Samples	ABO confirmed Linked in a Recipient-Donor Pair	ABO confirmed Linked in a Recipient-Donor Pair

Kidney LDD

Criteria	Recipient and Donor requirements
HLA typing	Authorised for: HLA-A – 1 field HLA-B – 1 field HLA-DRB1 – 1 field
Location	OM Lab Transplant Hospital
Samples	Linked in a Recipient - Donor pair

Liver LDD

Criteria	Recipient and Donor requirements
Location	OM Lab Transplant Hospital
Samples	Linked in a Recipient - Donor pair
