RADIO SCRIPT 60 secs

MIDDLE AGED MAN: Did you know that one organ and tissue donor can save or improve ten or more lives?

YOUNG WOMAN: My daughter Phuong was diagnosed with a serious heart defect when she was 9. Every day she got worse and we thought we would lose our little treasure. Then one day, the phone rang and our doctor told us there was a donor for Phoung.

MIDDLE AGED MAN: Being an organ and tissue donor is an act of great compassion. But to give the gift of life, you need to ask and know your family's wishes. In Australia the family will always be asked to confirm the donation wishes of their loved one. To find out how you can help, call **1300 133 050** or get an interpreter on 131 450

YOUNG WOMAN: Life is a precious gift and you can give it to others.
